

Stationary Source Division

Presents

Gas Turbines (# 272)

This one-day class explores the operational theory of several gas turbine models with emphasis on new combustor technologies and other control methods to reduce emissions. In addition, 40 CFR Part 60 Subpart GG requirements will be discussed along with source permit conditions and agency inspection procedures. Enrollment fees may apply. Safety gear required.

September 25, 2003

8:30 AM - 5:00 PM

Cal EPA Building

Training Room East & West, Ground Floor
